HIGHLY IMPORTANT DISCOVERY.

Fousel's Pabulum Vitæ

Has now gained its position before the Public as

THE ONLY REMEDY

yet discovered to the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, is universally meets with the most

ASTONISHING SUCCESS

in the treatment of the above complaints.

Its unrivaled popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the Analysis of Dr. A. A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES

And Unqualified Superiority

of this preparation to any other remedy now extant and are constantly rebinforing to give it a wider and more reliable reputation. From its vegetable nature, it affords vigor freely, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The disorders which has been thrown upon all preparations prescribed by regular physicians, even in the recklessness with which worthless and impure compounds have been imposed upon the public, will tend to deter many from ever themselves of the benefits of this preparation. However, assures the public in the strongest terms, that this medicine is not only *perfectly safe and free from all other deleterious ingredients* but guarantees it will perform all that is represented, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure

Consumption by using One to Six Bottles;

Bronchitis by using One to Three Bottles;

Coughs by using less than One Bottle;

Colds by using it Two to Six Days;

Tickling of the Lungs by using less than One Bottle;

Soreness in the Lungs by using less than One Bottle;

Soreness of the Chest by using less that One Bottle.

Price $3 per bottle, accompanied by a Treatise. For sale by

Scientific American.

PROSPECTUS.

Volume Fourteen.

BEGINS SEPTEMBER 01, 1858.

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS.

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year and will enter upon a New Volume on the 11th of September. It is the most widely publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as one might suppose from its title, a dry, abstruse work on technical science, on the contrary it deals with the great events going on in the scientific, mechanical, and industrial worlds, in a plain and instruct every one. If the Mechanic or Artisan wishes to know the best means, or how to make any substance employed in his business—if the Housewife wishes to find a recipe for making a good color, &c.—If the Farmer wishes to know what is going on in the world of improvements—if the Manufacturer wishes to keep posted with the times, and to use the best facilities in his business—if the Man of Learning and Study wishes to keep himself familiar with the progress made in the chemical sciences, or in the construction of telegraphs, ships, railroads, reapers, mowers, and a hundred other appliances, both of peace and war—in short *desiderata* can be found in the Scientific American, and *not elsewhere*. They are presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.

Terms—One Copy, One year, $2.00. One Copy Six Months, $1. Five Copies, Six Months, Ten Copies, One year $15 Fifteen Copies, 12 Months, Twenty Copies, Twelve Months, $25, in advance.

Specimen copies sent gratuitously for inspection. Southern and Western money, or Postage stamps taken for subscriptions. Letters should be directed to

SWAIM'S

Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books, (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M. D., Prof. of Surgery, Pa. Univ.

Valentine Mott, M. D., Prof. of Surgery, New York University

W. F. Dewees, M. D., Prof of Mid., Pa. Univ.

N. Chapman, M. D., Prof of Physic, Pa. Univ.

T. Parke, M. D., Prof College Physicians, Phila.

Dr. Del Valle, Professor of Medicine, Havana.

Jose Ramredo de Luz, Prof of Surgery, Lisbon.

J. Chipman, Member Royal College Surgeons, London

G. W. Erving, late Minister to Spain

Sir Thomas Pearson, Maj Gen British Army.

Gilbert Robertson, British Consul, &c., &c.

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1,50 per bottle, (containing three half pints,) or three bottles for $4

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass

"SWAIM'S—PANACEA—PHILADA."

and having the name of JAS SWAIM stamped on the sealing wax, and written on the label forming the cork, and a new label for the side of the bottle, composed of geometric lathe work, containing nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea" are engraved conspicuously on two turned stripe, and a large semi-circular die forms the upper margin. The borders are composed of plain lathe work stripe, outside of which is engraved, in small letters the entry of the copyright. Also,

Swaim's Vermifuge,

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, THE OLD STAND, Seventh Street, below Chesnut, Philadelphia, and sold by all the respectable druggists in the United States.

CAUTION TO THE PUBLIC

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name

SWAIM

is spelled correctly on the bottle and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

From the Hon Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 23, 1855

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq. of Boston, has been employed to solicitor, and has been in that capacity in constant correspondence and intercourse with the Office, he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a keen attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with the office with whom I am acquainted.

CHARLES MASON, *Commissioner.*

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments qualify him eminently fit him for the business in which he is about to engage.

The Proposed Change in the Schools.

Abstract from the Report of the Sub Committee, made to the Board of Superintending School Committee, upon the subject of uniting the Boys' and Girls' High Schools.

(Continued.)

The only school room in the city sufficiently capacious to accommodate the Boys and Girls united High School, is the one at present occupied by the Girls' High School. The building containing this room, stands in the large school lot upon Harlow street, known as Abbot Square, which is bounded upon its northwest side by a private lane or alley extending from Harlow Street to the margin of the Kenduskeag River. Parallel with this line of the lot, and at a distance of from 12 to 16 feet from it, within the lot, is the northwest wall of the school house under consideration. This building has a basement story,—a first—and a second story,—and one attic story. The basement story, which has its front and main door of entrance upon the southwest end of the building, is occupied by the (Girls') Select School, No 4.—The main story, or first floor has its door of entrance upon the northeast end of the building, and is occupied by the (Girls') Select School, No 3. The second story has its door of entrance also upon the northeast end, and is occupied by the Girls' High School. The attic contains two rooms, one on the southwest end adapted for a recitation or an audience room, to which access is obtained by a flight of stairs ascending from the High School rooms,—the other, at the northeast end, in which are the closets and cases containing the philosophical apparatus of the High School, and which also may serve for a recitation room. Access to this northeast room is had through the south west room. The whole of the second story was originally fitted as the High School. At a distance of about ten feet from the southwest end a partition was extended across this story from the front west to the southeast side. This partition, at the southwestern end, contained a door, the flight of steps of which ascended from the recitation room. The northeast and southeast rooms were one large room, and for the remaining part of the story,—with the exception of the landing at the head of the stairs in the eastern angle, and a closet at the rear from angle,—consisted of the principal school room of the Girls' High School, from which doors open to each of the rooms in front upon this floor, and to the stairway. The dimensions of the large room are 48 feet in width, by about 63 feet in depth or length, including the landing at the head of the stairs, and the west front is curved.—In this room originally there were 144 single seats, each with its desk, for pupils, arranged in 12 rows or ranks, each row containing 12 seats with desks corresponding, to them. Fourteen of these desks have been temporarily removed, but they can be preserved, and can be readily replaced.

In front of these seats with desks and extending nearly 26 feet in depth by 48 feet (the full breadth of the school room) in width. The teacher's platform occupies 9 feet of the depth of this area, and, together with the landing at the head of the stairs and the closet already mentioned,—the whole width, 48 feet, of the school room. An area of nearly 12 by 48 feet thus remains between the front row of desks and the teacher's platform. Upon three sides of this area seats are arranged for recitation seats, sufficient to accommodate from 40 to 50 pupils, without desks. The remaining portion of this area is used for properly enabling during the school recess, with the temporary accommodation of the philosophical apparatus which may be occasionally used in the school room. It is to a large force,—and, since the erection of the last furnaces has been discontinued, two large ovens used to warm the school rooms, have been introduced into the area.

One more row of 12 seats with their corresponding desks,—thus increasing the number to 156—might be added in this large area, without very sensibly reducing its dimensions, which would then be 10 feet in depth, from the desk to the teacher's platform by 48 feet in breadth. And, should the original design of warming the school rooms in the Boys' and Girls' High School, by means of the hot air furnaces in the basement, be resumed,—or should a plan be adopted for warming it by pipes conveying hot water, which the Committee regard as the best practicable method of warming the school rooms, and which they wish might be adopted,) so that the two large stoves which now encumber the area, without in any degree contributing to the symmetry, convenience, beauty, or elegance, can be removed,—a second additional row of seats 12 more seats with desks might be added in this area,—which would then be a little more than 10 feet in depth, between the front of the pupils' desks and the teacher's platform, by 48 feet in breadth,—and the whole number of seats with desks would be 168. Thus arranged, the school room would furnish permanent accommodations for 168 pupils, each of whom would have a separate single seat with a single desk corresponding to it. And, with this arrangement, the area remaining would be sufficiently capacious for any necessary purpose for which it might be required,—while the number of seats with desks would be sufficient to accommodate nearly or quite all of the present average number of pupils (170) who, during the present term, are attending in both the high schools. Besides these, there would remain the settees or seats without desks, which have been principally used for recitation seats, arranged upon three sides of the

NEWSPAPER ARCHIVE®

ares and which are capable of accommodating from 36 to 42 pupils. Thus, when thoroughly filled, the school room would contain almost and accommodate from 200 to 210 pupils.—However, although more desks with desks be needed than the 168 already proposed, all be provided, two ways remain, by either or both of which they can be supplied.

The *first one*,—and one which would require but a slight alteration in the school room, and would involve but a small expense, is by splitting from 3 to 6 seats with desks each end of the area,—thus increasing the whole number of seats with desks to 174 or 186. The smaller number named, 6, (three at each end of the area,) together with the space of 3 to 4 feet in their rear, reserved for access to the blackboards on the walls,—would occupy between 6 and 7 feet in length at each end of the area, by its whole depth. The larger number named, 12, (6 at each end of the area,) would occupy between 9 and 10 feet in length at each end of the area, by its whole depth, and should the two large stoves be removed from the area,—which would be requisite if the seats and desks were added as herein proposed,—the space for 6 seats with desks would be less, and that needed for 12 seats with desks would not be a great deal more than that which is now occupied by those two stoves.—By this plan the area would become materially restricted,—yet it might probably remain of sufficient capacity to subserve all the necessary uses of the school,—as its dimensions, after the addition at the ends of 12 seats with desks, would be about 29 feet in length, by a little more than 17 feet in depth.

The *second* plan as the Committee think,—a *better* way, would be to remove from 16 to 20 feet in length of the middle portion of the partition between the school room and the present recitation room, thus throwing that part of the recitation room into the school room. The principal school room would then have its length extended, in its centre, from end to end of the building,—the added portion receiving the light admitted through the middle window in the southwest end of the school house. The additional space thus obtained would afford room for 20 more seats with desks, arranged in ranks or rows of 4 in front by 5 in depth. The number of seats with desks would thus be augmented to 188, even if none were added in the ends of the area. But if 12 were also added there, the whole number of seats with desks contained in the school room would be 200.

But this proposed enlargement of the school room would be made at the expense of encroaching upon the two recitation rooms on the same floor. How this may be remedied, the Committee will now consider. Leaving out of consideration, for the present, the northwest, or smaller recitation room, which is about 14 feet square, and which it is proposed, as will be seen hereafter, to appropriate to another purpose—it may be stated that the proposed enlargement of the school room will be almost entirely if not wholly made from the southeast or larger recitation room, which is 14 feet in depth by more than 30 feet in length. After the proposed enlargement of the school room shall have been made, there will yet remain from 14 to 16 feet in length of the southeast recitation room, at its southeast end.—This will also make a room quite as large as the present smaller, or northwest recitation room. This proposed new or altered room may be used as a recitation room, to supply the place of the present northwest or smaller recitation room. And the southwest room in the attic, hereinbefore mentioned, and which is readily accessible, may be used as a recitation room to supply the place of the present southeast or larger recitation room.

HOWE'S COMPLETE BALL-ROOM HAND BOOK, containing directions for over three hundred dances including all the latest and most fashionable Terpsichorean movements, illustrated by appropriate engravings—also remarks on proper deportment and upon the etiquette of dancing—compiled by Elias Howe and other eminent professors of the graceful art—is just published by Messrs A. Williams & Co., Boston, and is for sale in this city by Alonzo Bartlett. This is a desirable book, and a useful one for those who dance.

TAR VS WATER. It is stated in the New York papers as confirmatory of the folly of pouring water upon burning tar, as in the sad case of the Austria, that in the great fire which occurred in Brooklyn some years ago, it was observed that as the tar flowed out with the water into the docks, it continued to burn, so that the whole surface of the water was in a blaze for some distance. Neither the water from the engines nor the water in the harbor extinguished the flames.

"GAB."—Mr Hubbell of Philadelphia has replied to a circular from his Alma Mater at New Haven, asking money for a Society or Club instituted to train young men to premeditated or extemporaneous speaking or discussion, decli ing to contribute. He says.

"Gab is the fatal epidemic of Republics.—What distracted Greece? Gab! What fascinated Rome? Gab! What annihilated France? Gab! What will dismember this Union? Gab! The eternal propensity for gabbling, upon all occasions and at all times, is the curse of our country."

ROSETA. Every woman has a right to be of any age she pleases, for if she were to state her real age, no one would believe her. Every woman, who makes puddings, has a perfect right to believe that she can make a better pudding than any other woman in the world. Every man who carves has a decided right to think of himself by putting a few of the best bits aside. Every woman has a right to think her child the 'prettiest little baby in the world' and it would be the greatest folly to deny her this right, for she would be sure to take it.—Every young lady has a right to flirt when she pleases, if her lover is by her side to punish her. Every fool has a right to be on the best terms with himself, and that man is a greater fool who differs with Mr. about these terms. Every child, who makes a noise, has a right to be turned out of the room; and, supposing you have not the right, you are not easily insulted, if the parents are absent, by whipping it.

By the various absurd and false reports, which have been put in circulation during the last two weeks, from certain Republican sources, respecting the election of Member of Congress from this District, there can be little or no doubt that the leaders in the opposition are determined, that if possible the Governor and Council shall be supported in issuing a certificate of election to Mr Foster, if there is the least plausible pretense for so doing.

The above is from the Machias Union, copied in editorial style into the columns of the *Bangor* Union. It shows what are the desperate determinations of the Border Ruffian Democracy, in the event of there being a pro-slavery majority in the next Congress. They mean, in that case, to unseat every Republican member who has less than a thousand majority, by the most unblushing abuse of Congressional power. It is the next feature of the Democratic political programme. If they can't *elect* members of Congress in the Northern States, either by honest votes or by bribery or fraud, they mean to put Republican members of their stamp, upon the slightest pretence, or without any pretence. As to the above talk from the Machias Union, it is of the cheapest quality—and appears very properly and very naturally in the columns of its Bangor contemporary. "The absurd and false reports" which it speaks of as "coming from Republican sources," are from copies *of the official returns of votes*, deposited in the Secretary of State's office, at Augusta. Those official returns show that Mr Foster is elected by more than one hundred majority, after counting for Brad bury all the illegal and irregularly thrown votes which are claimed for him, and also allowing him the monstrous vote of the Madawaska plantations, in one of which the Assessors counted and recorded the vote in a *secret session*, in direct violation of law, after violently expelling the people from the room.—Counting all these votes, wrong, for Mr Bradbury, the returns still show over a hundred majority for Mr Foster—and the Augusta Age, the Democratic central organ, *gave up* the District ten days ago. All this the Bangor Union knows and has known—and yet it conceals it from its readers, and, in conjunction with its worthy cotemporary down east, throws out such stuff as we have sampled above. If there was ever any thing unmanly, more contemptible or more dishonest in politics, it has not been our ill-ing enable fortune to encounter it.

THE REPUBLICAN CAUSE IN NEW YORK.—We believe, from the indications given by the Republican country press in New York, that there will be an active and satisfactory political campaign in the Empire State during he next three weeks. We believe this, because we see that the people are awake, and that the contest is to be one *for principle*. Many of our friends are doubtful of the result in New York, because of the failure to unite on the part of the Republican and American State Conventions, but we have faith to believe that Republicanism, "pure and simple," can and will triumph. If a union could have been honorably effected—with no compromise or yielding of Republican principle—we should have rejoiced to see it. But the time had not arrived for that. The "American" politicians—that is, the leaders—are yet unwilling to concede to Republican doctrines. On the contrary, they insist that Republicans shall ignore their doctrines and their principles, before they will unite with them. Such being the case, the Republican delegates, with what we consider true wisdom, refused to form a coalition, and proceeded to nominate a pure Republican ticket, upon a pure Republican platform. And as we remarked in the commencement, the Republican country press, reflecting the sentiments of the true hearted *people*, are giving indications of an animated and a glorious campaign upon that basis. We believe it will result in a clear Republican victory over pro-slavery Democracy and pro-slavery Americanism of all stripes. But whether that victory comes this year or next, it is sure to come in season for the great battle of 1856, and our friends do well, even now, to hold up high and clear the Republican banner, and follow only its glorious lead.

To show the temper of the New York country press, we copy one of many extracts given by the Albany Evening Journal.

(From the St. Lawrence Republican.)

The Republican Convention could not dilute or change the just and liberal principles upon which the Republican party is founded, for these constitute the glory and strength of Republicanism, and it is attachment to its principles that unites and attaches a Republican to his party. These principles are freely, fully and clearly declared in the address and resolutions of the Republican Convention, and every man who approves them has an opportunity to give them his support. Who that loves Liberty, and desires to see the free institutions established by the patriots of the Revolution perpetuated in their purity—who that detests the fraude of Lecompetonism and condemns the course and policy of the administration of Buchanan—who that favors the doctrine of "equal and exact justice to all men," will not join the Union and proprietor of said opposing the Republican, Know and the Republican candidates? Who is there that desires to put an end to the infamies, wrong and outrage perpetrated by an administration controlled and directed by a million and slave propagandists, that does not see that the hopes of success in every contest upon the Republican party hold in suspense. Many have deserted it on Republican Platform. Convention of delegates last must respond in haste, and right worthy of support are the candidates they have nominated. They are all eminently competent and true Americans, coming fully up to the old Jeffersonian standard of honest, capable, and faithful to the Constitution."

It's easy to say friends in New York:—Hold fast your Republican principles. This is the only sign by which you can conquer—and by this sign you *will* conquer, as sure as there is intelligence and love of freedom among the people.

Democratic Persecution!

SANDERSVILLE, Oct. 5.

MESSRS. EDITORS,—The out-building of Mr. Asa Spooner, of this town, were pulled down on Friday night last. Mr. Spooner is one of the leading Republicans of this town, and was a member of the Exeter convention. He has taken a very active part in the politics of the country. He was engaged in a heated discussion of political questions of the day with several Democrats, and having, as usual, the advantage in the discussion, recourse was had to this act for revenge.

There is no doubt but this is the work of political enemies. It is believed that sufficient proof can be procured to fasten the guilt upon two at least of those concerned.

The approaching *State Elections* take place as follows:—On the 11th of October—South Carolina and Florida—in the former for members of the Legislature, in the latter for Congressmen. 12th—Pennsylvania, Ohio and Indiana; in the two former for State officers and Congressmen. Nov 2—Massachusetts, New York, Illinois, Michigan, New Jersey, Wisconsin and Delaware; in the first four for State officers and Congressmen, in the last three for Congressmen.

Humboldt says that he met one day, in his travels, with a naked Indian, who had painted his body so as to represent a blue jacket and trousers with black buttons. This a cotemporary stigmatizes as "creasting the tailor."

LOCAL AND MAINE NEWS.

COMPLIMENTARY. The editor of the "State of Maine" who passed through our city on the Aroostook Expedition, on Monday, has the following remarks in a letter to his paper:

"Bangor *was* what Portland needs, several first class Hotels. The Bangor House, Dwinel House, Penobscot Exchange, Hatch House and Franklin House, may all be ranked in that list. The Bangor House was modeled after the Tremont House, Boston, and at that time, has no superior in New England, out of Boston, if there Re-furniture is new and elegant, its tables always well supplied with everything the season can furnish, and its management perfect throughout. Its present proprietor, Mr G. W. Larrabee, formerly kept a Hotel in Lowell. The attack upon him by the "Press Jaug," on Saturday evening, only put him upon his reserved rights, and he met the emergency at once.

"Of the business of Bangor, I have not time to write as fully as I could wish, but the feeling of the business men is far more hopeful than I had been led to expect. Everything here is in a very sound and healthy condition, and the people are waiting for a rise, with good assurances for its early flow. The cost of cutting lumber and of bringing it to market is reduced to a more economical scale than formerly, and there is less danger of running into an excess of supply. The next upward move of business, must make Bangor a place of vast wealth, from the extent of her ownership in timber lands. She needs but a single work to do this, a Railroad to the Aroostook, with an embranchment of the line to St. John. Her stores, wharves and warehouses are built, her means of communication by railway and steamboat West, are complete, and she only needs to open up the interior of our own State, which naturally comes to her for a market, to double her present population."

[The editor of the Bath Times, on the same expedition, pays the following just tribute to our admirable railroad:]

"The ride from the Kennebec river to Bangor is over one of the best roads, the most thoroughly built, the most evenly running and the most comfortable to be found in the whole Union. We have, within three years, twice made the trip by rail to the Mississippi river, passing both sides of Lake Erie, over both Michigan roads, and over the Grand Trunk, and with the exception of the Michigan Central from Detroit to Chicago, we doubt if a road can be matched against the Penobscot and Kenndbec which will not suffer in a time of the respects important to the comfort of a traveller, by such comparison."

TUESDAY, Oct. 7.

The Court was occupied all day with No. 122, Holton vs. Seavey. The case was submitted to the jury late in the afternoon, and the verdict was not rendered when the Court adjourned.

BANGOR PHILOMATHEAN SOCIETY. This debating society of young men, of which we have before spoken most favorably, met on Tuesday evening in Mechanics' Hall. At the last meeting succeed the quarterly election, and the following officers were chosen:

President—George Cobb,
Vice President—Geo. F. Bowen,
Secretary—James Boyce.
Treasurer—Wm. H. Norton.

The people of Skowhegan have recently had a "look up" for the accommodation of offenders against the law.

THE EXCURSION OF THE "EAGLE." Eagle Engine Company No 3, Capt. Henecy, returned by the rail road on evening from their excursion to Waterville. They were the invited guests of Waterville Company No 3. The latter company, in full ranks, received the Eagles at the Waterville depot on Wednesday evening, with a band of music, fire works and torches, and escorted them to Williams' Hotel, where a beautiful supper had been provided. After doing substantial justice to this repast, the two companies repaired to Appleton's Hall, and with the grateful aid of the fair ladies of Waterville danced until the next day. It was just one of those occasions "where youth and beauty meet."

On Wednesday morning they marched to the grounds of the North Kennebec Agricultural Society, and returned again to dinner at Williams'. The landlord spread a bountiful repast, which being disposed of was followed by speeches and sentiments of mutual respect and good feeling.

The slight rain in the afternoon prevented any lengthened drill but the Eagles played their machine a few times, to show what might be done with her.

They return full of hearty praises of the enthusiastic reception and extended entertainment given them by the Waterville boys and their accomplished and gentlemanly Captain Drummond. No pains were spared to make their visit agreeable, and no such efforts were ever crowned with more complete success.—Not one thing occurred to mar the pleasures of the excursion. Waterville and Bangor may well feel proud of their Number Three.—Their gentlemanly deportment at home and abroad, secures them the confidence and respect of their fellow citizens.

Upon their return last evening, they were received by the Volunteer Three, and escorted to their Engine House, where their friends had provided an oyster supper to which voracious justice was done.

THE OLD COON IN BAD BUSINESS. We regret to learn from the Machias Republican that "that same old coon" has so far degraded himself as to go into the business of robbing hen-roosts in that vicinity.

We notice by the papers that Hon. John Appleton, Assistant Secretary of State, is at present the guest of Governor Isaac Hill, of New Hampshire. The Portsmouth Chronicle learns that Miss Abby Jane Blake, aged about twenty, daughter of Mr Samuel Blake, of Kittery, committed suicide by drowning in Seaward's Cove, on Sunday afternoon, at about 5 o'clock.

The numerous friends of Henry Smith Esq, formerly of this city, but now of Columbus, C T, will be glad to learn that he has been appointed to the lucrative office of "Under Sheriff" with a salary of about $5000 a year.

THESE are for the purpose not only of expanding the chest and improving the figure, but also for carrying the whole weight of the skirts. It is well known that nervous diseases and weaknesses are brought on by the foolish fashion prevalent among ladies of wearing the whole weight of their skirts about their hips. With this article any number of skirts may be worn without injury to the health, they in fact embrace all the advantages of the stay and corset, without any of their evils.

Parents, look to your Children!

These Braces are almost indespensable to children, as they are liable to contract the habit of stooping and shrugging their shoulders at school, causing them to grow narrow chested, and laying the foundation for consumption and lung disease. Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your building at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person, with a jack knife can do all the repairing that it will need for twenty years, as it will not get out or order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of Albert Noyes, Central Street, Bangor, where I shall remain for a few weeks. Town rights for sale.

TO THE DAILY WHIG AND COURIER

LATER FROM EUROPE.

ARRIVAL OF THE

Steamship Canada,

AT HALIFAX.

HALIFAX, Oct. 7.

The steamship Canada, Capt. Lang, which left Liverpool at 10 A. M. of the 25th Sept., arrived at Halifax at 7 o'clock this morning.—She reports having passed, 25th, American barque Resolute, bound West. On the 4th passed British barque Catherine, bound East.

Among the passengers by the Canada is C. W. Bradley, bearer of despatches from China.

The crew of the ship Golden State, at Penang, mutinied on the 19th July. They would not work, under the pretence that they had not enough food. They beat the officers and a seaman fearfully with handspikes, and took a boat and went ashore, where they were captured and taken in custody. The first officer died the same evening.

Britain.

A conflict between the officials of the Atlantic Telegraph Company continued. Bl... has issued a second pamphlet in answer to Whitehouse's statements. He charges the latter gentleman with ignorance of facts of the case, and disputes the correctness of his ... Brett says that simple rope of gutta percha covered cables have been proved ... and hopes that the company will lay a cable of three electric conductors next year. Atlantic shares quoted at £300 to £330.

The British Board of Trade returns for Aug. show a decrease in exports of over half a million sterling, compared with the same month last year.

The new telegraph cable between England and Holland has been successfully laid; the heaviest yet submerged, weighing 1260 tons, although the distance is only 140 miles.

Detailed accounts of the recent uprising of convicts at Portland, show that the intention of the fifteen hundred men engaged in the plot was to fall upon the Guards in their combined strength and murder them; then to burn the prison, plunder the villages, and make their way to the main land. A handful of soldiers thwarted their desperate design.

The Times does not think the line of steamers established by the Odessa Co. for Mediterranean traffic, is all likely to ruin its established competitors—that neither politically nor commercially need the Mediterranean powers fear the temporary lease of Villa Franca, tho' Sardinia and Russia may have both been a little used to alarm or irritate Austria in the ...

The Daily News city article says extreme activity prevailed on Friday throughout the Stock Exchange, but late in the afternoon the funds were stimulated by two considerable purchases for account, and consols closed one eighth per cent higher than yesterday.

There were no bullion operations at bank.

At Paris to-day 3 per cent rentes improved one sixteenth to one eighth.

Bank returns show that the increase in bullion agrees almost exactly with the amount of gold known to have been sent into the bank during the week referred to. The inference is that recent withdrawals of coin on provincial accounts have absolutely ceased. The surplus at present held in the country will soon begin to flow back to the bank.

The Times city article says English funds continue perfectly inactive. After the termination of business some transactions were effected at an improvement of one eighth.

France.

The Bank of France on the 23d reduced its rates of discount to 3 per cent, making the rate two and a half for bonds under six months, three per cent for those above.

An imperial decree nominates Baron Gros, French plenipotentiary in China, to the dignity of Senator.

Paris letters say the French difficulty with Portugal is arranged, or in a fair way of being so.

Forts were being constructed for troops ... who are to form an establishment on the shores of the Bay of Tourane, Cochin China.

Prince Ghika was killed in Paris by throwing himself from his carriage, his horses having taken flight.

A correspondent of the Independence Belge says the French forces at Rome are to be augmented.

Solemn mass of thanksgiving was celebrated ... in the Church of Foreign Missions, in celebration of the Chinese treaty.

It is said that the French ships of war in the Adriatic will be withdrawn, the affairs of Montenegro no longer requiring their presence there.

Spain.

According to official despatches from Madrid, government will augment the army, to be prepared to put down political agitation in any quarter.

It was said the expedition against the Riff pirates was to be postponed till spring, but government will act energetically against Mexico.

A telegraphic despatch states that the state of siege had been raised for Catalonia and Malaga, but still maintained for high and low Andalusia, Aragon and Jaen.

Prussia.

A Berlin telegraph says King Sigourd's order, which definitely regulates the question of government, was not to be published till the return of Prince of Prussia from Warsaw, to which place he had gone to witness the grand military evolutions before the Emperor.

It was reported in Paris that the English government also proposes sending a military man as representative there.

The Russians are reported to have gained another great victory over the Circassians.

At Moscow, the Metropolitan Archbishop delivered a solemn allocution to the Emperor, charging him to carry the orthodox Christian faith by all means and appliances, into the heart of China.

China.

The Anglo Chinese treaty had not been published, and the press was murmuring at the delay.

The Moniteur gives details of the French treaty, already generally known. It says the punishment of the Mandarin by whose orders Father Chagdelaine was beheaded, will be made public.

The indemnity to France is 15,000,000 f.

It is reported in Paris that the Emperor of China is to have the grand cordon of Vladimir from Russia, and that of the Legion of Honor from France.

Cape of Good Hope dates are to Aug. 12th. Disputes have occurred between the British and Portuguese authorities in Mozambique ... A small cutter from Natal, trading on the east coast, was seized by the Portuguese for not paying duty at Delagoa Bay; the crew were sent to Mozambique and placed in charge of the British Consul, who demanded the boat and cargo, without success. He has in consequence left for England, to represent the case to the foreign office.

Sir Geo. Grey was meeting with enthusiastic reception ... It was hoped that his mediation with the powerful chief Moshesh, would produce peaceful results.

The Canada sailed for Boston at 4 P. M.—Light wind, and cloudy.

Liverpool Markets.

SECOND DISPATCH.

From Washington.

WASHINGTON, 7th.

Mr. Reed, Minister to China says in his official dispatches received to-day, that after he signed the treaty he made a provisional arrangement with the commissioner for the adjustment of the claims of the American citizens, arising out of the difficulties at Canton, by which portions of the duties at Shanghae, Fuh Chau and Canton are to be appropriated to that end. He intended to visit during the summer months, each of the ports of Japan as might be accessible, and return to the United States by way of Bombay, in November or December next.

Commodore Tatnall in his official despatch to the Secretary of the Navy, dated July 5, after saying the entire East India Squadron would be shown to the Japanese, remarks that there could be no better opportunity for a temporary absence from the coast of China, as the recent treaty and termination of hostilities, together with the swarms of English and French ships in the rivers, must place all the foreign interests of a lawful kind in perfect safety for the present. He would return to the coast of China about the last of October.

The Treasurer's weekly statement shows a balance in the Treasury on the September 30 of $10,171,000.

Judge Bowlin and Commander Page left Washington this afternoon for New York.

The Navy Department is preparing orders for Com. Shubrick, and the frigate Sabine will sail early next week on the Paraguay expedition.

Gen. Ward of New York has been appointed Secretary to Commissioner Bowlin.

Davis' Pain Killer.

BROOKLYN, Conn., June 15, 1854.

Friend Davis—Although a stranger to you I take the liberty of addressing you a few lines, for the purpose of saying a few words in favor of your invaluable medicine. I have used your Pain Killer for a number of years for bowel complaint and burns, and in fact for pains of all kinds, I think it pre-eminent. I have had several attacks of dysentery, and very violent. I was attacked at three o'clock in the morning, and at sunrise I was not able to get off my bed. I just took and got a twenty five cent bottle of your Pain Killer, which I ... according to directions, and at 6 o'clock in the evening my bowels were regular, and I got up and moving about, although somewhat weak. I would recommend all similarly afflicted to avail themselves of your invaluable medicines. ELMER WILLIAMS.

Sold by Druggists, Grocers and Medicine Dealers every where.

CRAMP & PAIN KILLER.

The world is astonished at the wonderful cures performed by the CRAMP AND PAIN KILLER, prepared by CURTIS & PERKINS. Its equal has never been known for removing pain in all cases; for the cure of Spinal Complaints, Cramps in the Limbs and Stomach, Rheumatism in all its forms, Bilious Colic, Chills and Fever, Burns, Sore Throat, and Gravel, it is decidedly the best remedy in the world. Evidence of the most wonderful cures ever performed ... in the hands of Agents.

Mothers! Mothers! Mothers!

Don't fail to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it the best and surest remedy in the world in all cases of Dysentery and Diarrhoea in children whether it arises from teething or from any other cause.

If life and health can be estimated by dollars and cents it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

None genuine unless the fac-simile of CURTIS & PERKINS, New York, on the outside wrapper.

GREAT SALE
—OF—
LANDS IN MICHIGAN

IN PURSUANCE of a Resolution of the Board of Directors of the Saint Mary's Falls Ship Canal Co., And in order to facilitate and encourage settlements in some of the interior Counties, where this Company hold large bodies of valuable FARMING and PINE LANDS, I shall offer at Public Sale, on the FIFTEENTH DAY OF OCTOBER NEXT, At the Company's Land Office in Detroit, The following Lands:

	Acres.
In Tuscola county, near Cass River,	1,400
In Gratiot county, Pine River,	1,700
In Montcalm county—Flat, Pine and Chippewa Rivers,	17,000
In Isabella county, Chippewa river,	15,159
In Clare county, Tobacco river,	10,956
In Gladwin county, Tobacco-river,	6,903
In Midland county, Titabawassa river,	6,320
Total acres,	59,538

These lands are among the *Choicest Selections of the Company,* and are very desirable for Farming and Lumbering purposes. They will be sold without reserve, at a *Minimum Price of $3 per Acre,* and upon the usual terms, viz: One fifth down, and the balance in one, two, three and four years, with interest at six per cent. per annum.

Liberal terms will be given to colonies or individuals desirous of making immediate settlement.

Arrangements have been made to receive in payment the full paid Stock of the Company, at the rate of $150 per share, either in whole or in part, for any sales under this offering, and in like manner the Bonds of the Company at par.

These lands have been thoroughly explored, and any information concerning their character, quality and quantity of timber and locality, may be seen at this office. They contain an average of more than 6000 feet of good pine lumber per acre, a good proportion of it clear.

Maps of any township or tract, with general descriptions of the Lands, may also be obtained on application, by letter or otherwise, to

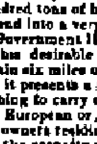
FOR SALE,



A valuable Mill and Lumbering privilege at St. George, New Brunswick consisting of a new Gang Mill, with all the modern improvements; a new Dwelling House and Barn, Store, and other buildings, and a Farm cutting about fifteen tons of hay, in addition to which, and immediately adjoining the Mill, this property embraces about nine thousand four hundred acres of wilderness land, in one block, well covered with Pine, Spruce, Hemlock, Cedar and Hardwood, through which runs a chain of lakes and a stream furnishing an abundant supply of water for driving and sawing purposes. On the property is interval land, which can be made to produce one hundred tons of hay at a trifling cost. The lakes extend into a very large and well timbered tract of Government land.

This desirable property is on Lake Utopia, within six miles of the village of Magaguadavic, and it presents a rare opportunity for a person wishing to carry on the lumbering business for the European or American markets. The present owners residing in England are disposed to sell the property at a reasonable price.

For further information apply to JOS. CRANGEE, Esq., Calais, Maine, or to A. J. WETMORE, St George, New Brunswick.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line, as below.

By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, guaranteeing no detention on the Isthmus.

Transit made in *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 2,30 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, with the greatest comfort and safety to health.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent of Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the U. S. and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,

American & Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington under the Act of 1837,)
76 State St., opposite Kilby St.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents."

"Boston, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all inventors* to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery with my boots constantly in water, and they do not have my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

ROOM PAPERS.—10 Per cent., 4000 Rolls cheap Room Papers, for sale by
aug26 O. R. PATCH.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets;
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts. per lb
Bonds and Mortgages—40 cts. per lb
Wills and Deeds—40 cts per lb

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,
Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

Only one dose taken at night loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Cholic, while

One dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes the food digest well.

One dose often repeated, cures Chronic Diarrhoea in its worst forms, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

N. S. HARLOW'S.

THEODORE PARKER'S Fourth of July Sermon, for sale at
A. BARTLETT'S,
2 Harlow Block,
aug9 East Market Square.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good, but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor,—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint: see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give him these PILLS, and mark the effect; see the scabs fall from his body; see the new fair skin that has grown under them; see the late leper that is clean. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man. See her that was radiant with health and loveliness blasted and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, assimilation or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. Now look again—the roses blossom on her cheek, and where lately sorrow sat joy bursts from every feature. See the sweet infant wasted with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they are eating its life away. Its pinched-up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows. Give it the PILLS in large doses to sweep these vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

THE LUXURY AND PROFIT OF
HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Washington, which has been examined and approved, and taken the first premiums wherever exhibited, have introduced improvements on this Bee Hive and is now prepared to make Hives in connection with the Davis Platform, and sell right to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose. It is warm all the year, providing for ventilation at all seasons of the year, room for the exercise and feed of the bees, required for the removal of excrement, proper separation of the swarms as well as health and comfort of the swarms.

The hives used at the Davis Platform are the best ever made, holding from three to six quarts of honey.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives or individual rights.

For sale, fifty swarms of bees with the new hives.

For hives, individual rights, address
R. S. TORREY.
